

The listing of the claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended). Multiple trolley container crane having at least two trolley tracks (6, 7) disposed one on top of the other, on which trolleys (8) having running wheels, drive devices, and lifting devices move, ~~characterized in that~~ wherein

- running wheels (20) that can be laterally retracted and extended, and
 - an integrated lifting system (21, 22, 24, 25, 26)
- are disposed on the trolleys (8) on the trolley tracks (6, 7), with which they support themselves on or next to the trolley tracks (6, 7) and thereby get from the lower to the upper trolley tracks (6, 7) and vice versa.

Claim 2 (currently amended). Multiple trolley container crane according to claim 1, ~~characterized in that~~ wherein cylinders or telescoping cylinders (22) are disposed on the trolley (8) as the integrated lifting system (21).

Claim 3 (currently amended). Multiple trolley container crane according to claim 1, ~~characterized in that~~ wherein racks (25) with gear wheel (26) or spokes are disposed on the trolley (8) as the integrated lifting system (24).

Claim 4 (currently amended). Multiple trolley container crane according to ~~one of claims 1 to 3, characterized in that~~ wherein several trolleys (8) are disposed, one behind the other, on the upper or/and the lower trolley track (6, 7).

Claim 5 (currently amended). Multiple trolley container crane according to claim 4, ~~characterized in that~~ wherein track connections (15) are disposed between the two sides of the tracks (6, 7).

Claim 6 (currently amended). Multiple trolley container crane according to claims ~~1 to 5, characterized in that~~ wherein an extendable power supply (19) is disposed on the trolley (8), on contact lines along the trolley tracks (6, 7).

Claim 7 (currently amended). Multiple trolley container crane according to ~~one or more of claims 1 to 6, characterized in~~

~~that~~ wherein support surfaces (29) for the integrated lifting system (22, 25) are disposed next to the tracks (7).

Claim 8 (currently amended). Multiple trolley container crane according to claims 1 ~~to 7, characterized in that~~ wherein storage units such as batteries and oil pressure storage units are constructed on the trolley, for the lifting and lowering procedure of the trolley (8).

Claim 9 (currently amended). Multiple trolley container crane according to claims 1 ~~to 8, characterized in that~~ wherein the control, particularly for the lifting and lowering procedure, is carried out by way of radio control from the crane operator's cab or from another location.

Claim 10 (currently amended). Multiple trolley container crane according to claims 1 ~~to 9, characterized in that~~ wherein individual trolleys or a plurality of trolleys (8) can be moved on the trolley tracks (6, 7), individually or in groups.
